

# Introduction

**Welcome to the course!**

## **Suggestions to the course responsible/teacher:**

Give a personal welcome to the students, introduce the teacher(s) and the overall content of the course, explain why you find the course relevant and fascinating, insert a relevant photo.

The students enter the course through "Modules" and ALL course content can be accessed from the Modules. Write a short guide to the course on a introduction page like this - eg. the students should always check the announcements for updates and they can get an overview of the course in the course plan.
